Trains leave city station, Carbondale, daily (except Sunday) at 7:00 a. m. and 4:30 p. m. For Buffalo and Niagara Falls: 7:00 a. m., 10:00 a. m., 1:00 p. m., 4:00 p. m., 7:00 p. m.

DECORATIONS WILL BE SUPERB

There Will Be Pillars and Arches Galore About the City Hall Grounds and in Memorial Park, and a Thousand Incandescent Lamps Will Furnish Their Glow After Nightfall During the Semi-Centennial—Other Jubilee News of Interest.

The arrangement for the superb decorations for the semi-centennial celebration are complete and, commencing on Monday, Fuhrman Bros. of Scranton, who have been awarded the contract, will devote themselves to the adornments that will put the city in an attire befitting the great event that Carbondale's citizens will celebrate during semi-centennial week.

The plans of the committee comprehend decorations that will delight the residents and attract the visitors who will be the guests of the pioneer city of the Anthracite coal region during the days of the jubilee.

Subscriptions continue to come to the general fund. The New York, Ontario and Western Railroad company has followed the Delaware and Hudson company, with the substantial donation of five hundred dollars.

The labor unions have hustled the details of their part in the celebration and have appointed J. B. Chaffrey as grand marshal of the Labor Day demonstration, and John Hermes, chief of staff.

The float, "Remember the Maine," will be chief among the attractive displays of the school children's parade. The little "white sailors" who participated in the recent "Mystic Midgets" performance, will be on this float.

NUPTIALS AT ST. ROSE CHURCH

Morning Wedding of Miss Emma Pauline McLaughlin and John W. Buckley, of Norwich, Conn.

In the presence of a throng of worshippers gathered to observe the feast of the assumption, the nuptials of Miss Emma Pauline McLaughlin, of Fall Brook street, and John W. Buckley, of Norwich, Conn., were solemnized in St. Rose church yesterday morning.

The bride and her maid, Miss Johanna L. Murphy, were richly gowned and with the groom and best man, J. P. Buckley, his brother, the quartette formed a beautiful tableau as they stood before the beautiful sanctuary and awaited the plighting of the vows that formed the indissoluble bonds of matrimony.

The rich trousseau of the bride was from Fournier, of New York, and embraced the latest fashions. Rich brown broadcloth was the material, made into an Eton jacket and a seven gored skirt, with a circular flounce. The pretty waist was of corded silk, richly trimmed with pearls. Her headgear was a Panama tussan, draped with Lyons satin on choux. She carried a point lace handkerchief.

Miss Murphy, the maid, wore a gown

SHAKE INTO YOUR SHOES

Allan's Foot-Paste, a powder, it cures painful, smarting, nervous feet and growing nails, and instantly takes the sting out of corns and bunions. It is the greatest comfort discovery of the age. Allan's Foot-Paste makes tight or new shoes feel easy. It is a certain cure for sprain, callosities and hot, tired, aching feet. Try it today. Sold by all druggists and shoe stores. By mail for 50c. In stamps. Trial package FREE. Address Allan S. Olmsted, Le Roy, N. Y.

A DAY'S ACCIDENTS.

Timothy McCarthy, a D. & H. brakeman, knocked from a Car and Painfully Injured—Samuel Lemchinski's Spine Broken Under Fall of Rock.

Timothy McCarthy, of Scott street, a brakeman on the Delaware and Hudson local freight in charge of Conductor Dougherty, was painfully injured while at his duties at the Hudson station on the lower division. He was on the car, uncoupling, when he struck against a water crane. The force of the collision threw him from the car.

The accident happened about 4 o'clock yesterday afternoon, and about 7 o'clock in the evening he reached this city and was taken to his home. Dr. D. L. Bailey was summoned and found one of the injured man's left ears split, which required five stitches to close; his upper lip likewise injured, requiring as many stitches and his side badly contused. McCarthy's injuries are not serious, but they will keep him from work for some days.

Samuel Lemchinski, a miner in the "Devil's Eyebrow" mine at Edgerton, was caught under a fall of roof yesterday afternoon and probably seriously wounded. His spine is thought to have been broken. Lemchinski's home is on upper Powderly street, whither he was taken.

HASTE IS NEEDED.

If Carbondale Would Have the Sought-for Projectiles to Add to Display of Ordnance.

John D. Nealon, through whose efforts the ordinance that made such an acceptable display in Memorial park was secured, received a letter from the navy department, which indicates that if the projectiles asked from the government to include in the display, he not lost to the city, means will have to be immediately adopted to move them from the Brooklyn navy yard to Carbondale.

The letter to Mr. Nealon explains the circumstances fully. It reads: "John D. Nealon, Carbondale, Pa. Referring to the department's letter of recent date inviting your attention to the fact that the six eight-inch projectiles for the Parrott gun that this department shipped you had not been removed, and informing you that, if said projectiles were not removed within a reasonable time, the loan would be cancelled and the articles in question held for such other disposition as the department might direct, you are informed that the chief of bureau of ordnance reports that the above mentioned articles have not been removed."

"As more than a reasonable time has now elapsed since the department's notification it desires to be informed as soon as practicable, what, if any steps have been taken to remove from the navy yard, Brooklyn, N. Y., the condemned ordnance, loaned to the city of Carbondale through you. If no steps have been taken, or there is no prospect of the immediate removal of these articles, the department will instruct the chief of bureau of ordnance to treat the loan to the city of Carbondale as cancelled and to hold the articles as available for disposition, under the act of May 22, 1896.

"It is requested that this matter be given prompt attention. John D. Long, Secretary of the Navy."

RETURN OF DR. WHALEN.

He Will Conduct Services on Sunday, but Will Leave Immediately for Another Sojourn.

Rev. H. J. Whalen, D. D., will return to Carbondale on Saturday of this week and will remain in the city for a few days.

On Sunday he will conduct the usual services of the Roman Catholic church, and on Monday he will meet at the parsonage with the committee of the Abington Baptist association, to perfect the arrangements for the annual meeting of that important body.

The pastor greatly desires a full attendance of the membership at the Sunday services, as it will be necessary at that time to pass upon several important matters in connection with the associational meeting and some home church matters.

PECKVILLE.

Funeral of Railway Victims. The funeral of Mrs. Edward Kelly, who was decapitated in Wednesday's railway accident, will take place this afternoon, leaving the house on Scott street, at 3 o'clock. Burial in St. Rose cemetery.

Mrs. Walsh, the other victim, will be laid at rest tomorrow forenoon. There will be a high mass of requiem, commencing at 8:30. Burial in St. Rose cemetery.

Unclaimed Letters. List of letters remaining in the Carbondale postoffice, Aug. 15, 1901, for persons unknown: Jack Clark, Dr. J. Delton Paucher, Patrick Kane, Mrs. Penwarden, Mrs. L. Russell, Mrs. John Thomas, Miss Nora Bryden (2), Miss Katie Finnegan, Mary C. Deats, Messrs. S. & M. Wagoner, Giovanni Gregori, Foreign, Gossip Kolopavski, J. H. Thomas, P. M.

A New "Y" Built.

The work of constructing a new "Y" in the Mayfield yard of the Ontario and Western was commenced yesterday. This will allow of the switching of the big "log" engines without using the turn table. The table was not built to accommodate these ponderous engines, and was being damaged by their weight.

Crescents Must Practice.

Manager Fox, of the Crescents, requests all of the members to assemble at Memorial park at 2:30 o'clock this afternoon, and go from there to Sanday's field to practice. This is to assure the strength of the team for next Sunday when Honesdale will be played,

THE LAW THREATENED.

An attempt was made one night this week to break into the club house on the new golf course near Alumni park, but it was unsuccessful. The keeper of the grounds served notice on the suspected parties that the law will be invoked if the attempt is made again.

Picnic Postponed.

The rain of yesterday afternoon and last evening caused the postponement of the Central Labor union picnic until Saturday night.

Dancing Class Social.

The Recherche Dancing class will conduct a social in Burke's hall tonight. Prof. Fleth will furnish the music.

THE PASSING THROG.

Miss Jennie Tighe, of the West Side, left yesterday for a visit at Pittston. Misses Joe Scully and Marie Cawley, of Forest City, were in town yesterday.

M. F. Tighe, of Scranton, a member of Bauer's orchestra, was a Carbondale visitor yesterday. John Buckley and daughter, Miss Ella Buckley, of Susquehanna, were in the city yesterday.

Miss Hannah Tighe and Miss Katie Morrison visited in Archbald yesterday. John P. Millay left yesterday for a five days' stay at the Pan-American exposition.

W. S. McClutchey and Mrs. McClutchey, of Pittsburg, were registered at the Harrison house yesterday. They were on their way to Crystal Lake.

Mrs. David Zeilly, of Brooklyn, N. Y., was a guest at the home of C. R. Manville and Mrs. Manville yesterday. George Burrell and family left yesterday for a sojourn at Asbury Park.

John Pool, son of Conductor Pool, left yesterday for Jamestown, N. Y., where he will visit for a month. Mrs. Lewis, whose modiste parlors are in the Anthracite building, left yesterday to visit at the Pan-American exposition.

S. B. Mills and family and Miss Jessie Moore left yesterday to visit at Asbury Park. D. J. Homan, the custom tailor, of Scranton, made a visit to Carbondale yesterday.

Mrs. Mary Diack, of Brooklyn, N. Y., is the guest at the home of Mr. and Mrs. Andrew Wylie, on Belmont street. Miss Jessie M. Greig, of Hawley, is the guest of Miss Anna Dimick, on Copeland avenue.

Harold Houghton has returned to his home in Jersey, after a week's visit with friends in this city. The Misses Retta McCabe and Delia Dalton, of Canaan street, are spending their vacation with friends at Parkersville, N. Y.

Frank Fitzsimmons and Henry Pidgeon, of Canaan street, are spending a few days seeing the sights at the Pan-American. Before returning home they will visit New York city.

JERMYN AND MAYFIELD.

There will be a special convocation of the select castle of Pennsylvania, Ancient Order Knights of the Mystic Chain, held in Assembly hall tomorrow evening, when all sir knights of Jermyrn castle, No. 182, a request to be present at the select convocation. Perry Heindel will give an address on the principles of the order. Refreshments will afterwards be served. The meeting will commence at 7:30 o'clock sharp.

The Ladies' Aid society of the Primitive Methodist church will have an ice cream social on the church lawn this evening. A cordial invitation is extended to everyone.

The employees of the Glenwood, Erie and Keystone breakers received their two weeks' pay yesterday. Mr. J. J. Long, who will hold their annual picnic at Lake Chapman on September 4.

Fred Dawe, who has been spending the past two months in England, returned a few days ago and upon his arrival in New York was quietly married to Mrs. Hannah McLean, a well known resident of West Mayfield. The bride and groom arrived home yesterday afternoon. Mr. Dawe was accompanied across the ocean by his daughter, Edith, who will make her home here.

In our report of Tuesday evening's board proceedings, there was an error in the amount of salaries of Mr. John T. Jenkins and Miss Cora Davis. The salary of these two teachers for the coming year will be \$35 per month and not \$30, as stated.

Mrs. James Wilson and Miss Wilbur, of Scranton, are the guests of Mr. and Mrs. William Gibbs, of West Mayfield.

The International Brotherhood of Stationary Firemen will hold their meetings every Friday evening at 7:30 in their hall at Mayfield. All members from Peckville to Forest City are requested to attend tonight's meeting.

ALL FLESH IS GAS!

THE biblical statement, "All flesh is grass," is the poetical presentation of man's frailty. The scientific statement, all flesh is gas, is only the practical presentation of the same truth. Says a scientific authority: "Solid as our body is, it is mostly made up of gases—oxygen, hydrogen, nitrogen, chlorine and fluorine. There is enough gas in a man to fill a gasometer of 3,649 cubic feet. In a man weighing 150 pounds the weight of oxygen is no less than 106 pounds, and the natural bulk of it were it set free would be equal to a beam of wood one foot square and nearly a quarter of a mile long, or several hundred times the bulk of the body itself. Measured by the gallon this compressed gas liberated from the body would fill 202 3/4-gallon barrels. Even bulkier though lighter is the constituent hydrogen. Every man's body contains enough of this lightest of all substances to inflate a balloon that would lift himself, balloon and tackle. It is about twenty times the bulk of the body containing it."

MARVELOUS MAN.

It is only in the light of such facts that we are able to appreciate the profound truth of the statement that "we are fearfully and wonderfully made."

A man fooling around a powder magazine with lighted matches is taking less risk than the average man takes every day with this body of his. Oxygen gas is by far the most important element in human flesh and bone. Without oxygen there is no life. In certain forms of disease it might be said that there was slow combustion of this oxygen going on which if not stopped would terminate existence. In the disease called consumption, for instance, the very term itself indicates the slow burning up of the life.

This fever heat, the flaming scarlet of the cheek, the burning eyes, associated with this disease are all symbols as well as symptoms of the slow consuming fire which is burning up the vital force.

There is no disease more terrible than this disease we call consumption. There is no triumph in medicine more magnificent than to put out that slow consuming fire of disease. This is the crowning triumph of Dr. Pierce's Golden Medical Discovery. It has cured thousands of cases of "weak" lungs, bronchitis, obstinate cough, hemorrhage, emaciation and feebleness, which neglected or unskillfully treated would have found a fatal termination in consumption.

"I take pleasure in sending you this testimonial," writes Mr. Will H. Whitmore, of Arlton, Rockingham Co., Va., "and to tender you my heartfelt thanks for the restoration to health of my son, A. P. Whitmore, through the use of your 'Golden Medical Discovery' and 'Pleasant Pellets.'"

"He contracted a deep cold about the first of July, 1899, and had a terrible cough. We called a doctor and he pronounced it irritation of the bronchial tubes, with asthmatic trouble, and he informed me that my son was liable to die any time. He told me that if we could keep the bronchial tubes open, he might cure him; but after treating him several weeks and my son growing worse all the time, I concluded to try Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' I had seen several miraculous cures brought about by the use of these medicines, and, of course, I had wonderful faith in them. I am so happy to tell you that I have not been disappointed, and that my boy is well. He used three bottles of 'Golden Medical Discovery' at home and one vial of the 'Pellets,' and was then well enough to go to West Virginia, taking a supply with him.

"We shall always feel grateful to you, believing that your treatment saved her from an untimely grave."

There is no alcohol in "Golden Medical Discovery" and it is free from opium, cocaine and all other narcotics. Persons suffering from disease in chronic form are invited to consult Dr. Pierce by letter free, all correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Sometimes a dealer will be tempted by the extra profit in inferior medicine to offer a substitute as "just as good" as the "Discovery." A medicine just as good as the "Discovery," should show "just as good" cures. No other medicine can do that. Therefore, accept no substitute for Dr. Pierce's Golden Medical Discovery.

"MAN, KNOW THYSELF!"

was the inscription above an ancient Grecian temple. There is nothing of which man knows less than his own bodies, and for this reason thousands perish who might live long and happy lives. Dr. Pierce's Common Sense Medical Adviser tells man what he is and how to live. It points out the pitfalls in the path of life. It deals thoroughly with the problems and perils of marriage. It tells the plain truth in plain English. This great book, containing 1008 pages, is sent free on receipt of stamps to pay expense of mailing ONLY. Send thirty-one one-cent stamps (cost of mailing 25¢) to the book is despatched bound in cloth. Or for paper-bound book send only twenty-one stamps.

Address: Dr. R. V. PIERCE, Buffalo, N. Y.

I am just in receipt of a letter from him from which I quote: "I am well and hardy and getting very fleshy."

"I sometimes wonder to myself why the whole world doesn't use Dr. Pierce's medicines and get well. The neighbors all knew the condition of my boy, and they all said he had consumption, and would not live a month, and the doctor told some persons after I commenced the use of your medicine that my boy had quick consumption and would have to die."

"If you wish to use this in any way you are at liberty to do so, with my full name and address."

The fire of disease cannot be put out by water. But it can be put out by another fluid—blood. Blood is life. But blood is made from food. Before the food is made into blood it must be properly digested and perfectly assimilated. The processes of digestion take place in the stomach and its allied organs. A weak stomach must mean weak blood and weak blood means weak life. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect nourishment of the body. It increases the activity of the blood-making glands so that a stream of rich, pure blood puts out the fire of disease.

"I deem it my duty to inform you concerning the wonderful restoration of my sister's health," writes Kate V. Reed, of 614 Park Ave., Lafayette, Ind.

"In February, 1898, she was prostrated by an attack of pneumonia which (after several weeks) resulted in an abscess of the left lung. After the disease had progressed about five weeks, her physician gave her up, saying that she was going into consumption, but it might be possible that as spring advanced she would improve, but with the return of winter the disease would renew itself and she could not possibly see another spring-time. At this juncture another sister, residing several miles distant, came to visit her, bringing with her a bottle of Dr. Pierce's Golden Medical Discovery. She had great faith in the medicine, and had hopes of its benefiting our sister Rose. After writing to Doctor Pierce for advice, we began using

the medicine, and before many doses had been taken, we noted an improvement in her condition. After using one bottle she was able to sit up in a chair for an hour or two at a time. Its use was continued until she had taken seven and a half bottles of the "Golden Medical Discovery" and one of the "Favorite Prescription," when she declared herself cured, giving all the credit to Dr. Pierce's medicines. And now, when she hears anyone complaining, no difference what the ailment, her advice is, "Take Dr. Pierce's Golden Medical Discovery and you will soon be all right. It cured me when other remedies failed."

"At the time she commenced taking your medicines, she was so weak she could not raise her head from her pillow, and was so emaciated that her weight was only ninety-five pounds; she now weighs one hundred and twenty pounds and is able to work steadily at her vocation—dressmaking."

"We shall always feel grateful to you, believing that your treatment saved her from an untimely grave."
